

## Meeting Record

Meeting Date: 11/13/2018

Meeting Members: Dave, all the CS group

### Procedure

---

meeting with VAV  
requirement selecting  
meeting with Franco this week

Android  
much market so we decide to load the package from website  
have a plan of who manager the website

Payment  
apple takes 30 percent fee when someone pay for the system  
the people who is in other campus

Last year group: when they log in the app, they need to pay

Our plan: when other users want to download this app, they need to pay the fee to  
App Store

Use Stripe and Braintree to pay online  
need more detail about how it works

communication technology

platform for the app  
loinc

java, XAMPP

two more meeting this year  
we can make an appointment on Dec 13 or 14  
using GitHub  
create an account for Dave  
plan  
meet Franco  
get requirements  
do some design  
system modelling

The attitude about the VAV  
they need not to use payment system this year  
it is a project for 3-5 years

make sure who and how to use the money to get the license  
create four parts about the app  
chat room like WeChat group  
one to one group  
personal information  
jump to a new page with comment  
what we still to do  
make clear what they actually need

some suggestions  
describe the problem solution during the project
